This is the web site of Mambotoys.

Signing up at this site is a no-brainer and is completely safe. I have no reason to contact you, and I prefer it that way. I have nothing to pitch your way, I'm not going to flood your inbox with worthless ads and I don't inform you about updates. You're on your own. If you're paranoid that I'll spam you, then don't waste your time. ...for those of you bold enough, enjoy!

Mambotoys - a no spam zone, and no bullshit site. Just toys for Joomla!
